BIO

Veronica has a day job at a local fast food store, but on the side she does all kinds of production work for an up and coming artist. She never hesitates to learn something new and she often acts as a tech support for her friends and clients. She is usually working on a dozen projects at a time and is trying to establish herself in the industry so she hates data crashes or anything that makes her look bad. Because she works alone and partly at school and at home, collaboration is everything.
