- Organizing Events
- Educating Our Community
- Recycle Crafting
- Environment Health
- Meeting New People
- Loving Our One and Only Planet Earth

Join us in our mission to converting our campus into a more eco-friendly school while educating our students and community about the importance of our planet's health.

WHAT IS FUEL ALL ABOUT?

Future Urban & Environmental Leaders (FUEL) is a student led organization at UM-Flint. FUEL seeks to increase environmental awareness and understanding so that our campus may have a healthier relationship with the environment and the surrounding community. We aim to inspire personal growth and learning for students interested in the fields of environmental science, urban planning, and sustainability.

We're all about recycling and keeping the environment around us clean while helping others understand why this is crucial to the health of our one and only planet Earth.
 Go Blue!
